

Dear FCC,

I am writing to you on the behalf of XM-Radio. I am a loyal listener of this product...hell I have it in both of my cars. The service is unmatched by the FM stations locally and when we travel! The traffic and weather updates are invaluable. When we travel, we do not need a television to entertain us, the XM-radio has all the variety needed for my family. If you guys have not tried the services in your car or home, maybe you should and you will feel the same as I do. I say to you as tax paying citizen who really enjoys the XM-radio services to totally REJECT the NAB's petition 04-160. I will await the response of the FCC. Thank you for your time and patience for reading my concerns.

Regards,

Kenneth R. Mackie
